

Agroecology

Leroy Ambroise	Characterization of landscape factors affecting biodiversity in agricultural landscapes in order to promote the provision of multiple ecological functions
Kelling Marit	Linking high resolution movement data of common noctule bats with their diet
Capitaine Lucille	Méthafaune project : Impact of intermediate energy crops on three species of cereal plains

Human - wildlife conflicts

Zeng Yu	Urbanization and habitat productivity influencing niche structures and competition behaviours of avian communities.
---------	---

Population dynamics

Schatz Camille	Does the mantle matter in sooty albatrosses' sensitivity to global changes?
Basu Nilanjan	Can tiger (<i>Panthera tigris</i>) return to a landscape? Assessing conservation using long-term prey base survey as an indicator.
Delamare Rose	Evolution of European hedgehog (<i>Erinaceus europaeus</i>) population density in rural and urban areas, for conservation purposes
Hochleitner Lukas	Impact of climate change on population ecology of edible dormice

Behavioural ecology

Champanois Juliette	Awake and hungry: Artificial light at night alters the behaviour of nestlings and parents collared flycatchers
Alleman Clémence	First results from telemetric monitoring of Yellow-bellied toad (<i>Bombina variegata</i>) in forest landscape
Héjja-Brichard Yseult	Sensory drive in the era of artificial intelligence: new tools for new experiments
Surreault Annaëlle	Talking to the elephants: Do the acoustic parameters of keepers' voices change according the context?
Bosca Julie	Vocal performance and territoriality in females: a field study in European robins.
Delmas Clémence	Who participates in the construction and maintenance of a common good in social species?
Cossu Doye Océane	Why and how to study birds' musicality : creation of a music for birds

Movement ecology & biologging

Bonnefond Laura	Intraseasonal variations in the spatial behaviour of an Arctic predator
Dupuis Benjamin	Depth data can predict energy balance of a key sentinel species of Antarctic marine ecosystem
Piening Kristin	Effects of GPS devices on little auk parental behaviour
Kalaitzakis Ioannis	Intrinsic and extrinsic factors affecting foraging behaviour of breeding Mediterranean gulls
Culioli Agathe	Reproductive excursions as an alternative mechanism for inbreeding avoidance in female roe deer (<i>Capreolus capreolus</i>)
Mayall Louise	Searching for a bit of peace and quiet: dispersal, settlement, and fitness of a top avian predator in multi-use forests

Functional and evolutionary ecology

Toh Yi Peng	Divergence in the antennal lobes of <i>Heliconius</i> butterflies as an evolutionary response to selection
Garcia-Cabello Karla N.	Conflict and evolution: unravelling the influence of superfetation on male reproductive structures in viviparous fish
Ana Milicevic	Ecology on a Carapace - diatom diversity on the carapace of European pond turtle (<i>Emys orbicularis</i> L.)
Melero-Romero Pablo	Effect of manipulation of brood size on mouth colouration in Blue Tits
De Wind Andrea	Implication of bacteria in the sexual selection of Iberian red deer
Gout Romane	Investigating the plasticity of cold and heat tolerance in the invasive <i>Drosophila suzukii</i> 's larvae using the Thermal Death Time analysis
Hadjadi Cloé	Selection and evolvability of mitochondrial traits in alpine swift (<i>Tachymarptis melba</i>)
Gonzalez-Bernardo Enrique	Tweet or treat: unveiling the effect of brood size on begging behaviour in Blue Tits

Ecotoxicology & Ecophysiology

Lemesle Prescillia	Contaminants and potential health risk to French seabirds: a multi-species and multi-site study
Bailly Audrey	Can organic farming reduce birds' exposure to pesticides?
Tartu Sabrina	Can the pollutant-fitness relationships be associated to the gut microbiome in free-ranging mammals?
Merleau Leslie-Anne	Dealing with pesticide exposure as a long-lived vertebrate: the case of a freshwater turtle species in three regions of metropolitan France
Bariod Léa	Do pesticides exposure influence the intestinal microbiota of a wild raptor, the Montagu's harrier?
Benoit Nolan	Exposure to PFAS and egg patterning in an arctic seabird
Bottini Claire	Seasonality and long term effects of methylmercury exposure on songbird brain: neurogenesis and myelination do not tell the same story.
Candillier Léa	The effect of the anxiolytic pharmaceutical oxazepam on territoriality in a social cichlid fish
